Communication – who should I contact?

- Lecturer-professor
  - Wrt course schedule, tests, retake/repeat, exam etc.
- Vice-dean/course director
  - Any specific educational issues; wrt educational progress, curricula, requests
- Dean’s office
  - Only PhD students
- Central Academic Office
  - Any administrative matters; Neptun issues, scholarship issues, accomodation/dormitory, scholarship extension etc.
- SH mentors
  - students' personal issues, accomodation/dormitory issues
- Tempus
  - Scholarship issues, changing education programs etc.

Communication – etiquette

- **First of all check the CAO/Faculty homepage and newsletters!**
- Email
  - Addressing
  - All required data (e.g. Neptun code)
  - Previous actions
  - Respectful communication
- In person
  - Ask for appointment in advance
  - Contact lecturers in consultation hours
  - Respectful communication

Contacting professors

- About points/grades: there’s no “please, give me one more point”!
- Professors have nothing to do with students' personal issues, health condition, scholarship status, do not refer such matters/cases!
- Professors are not obliged to reply multiple emails/requests/Teams questions.
- Professors should by contacted in an appropriate manner – politely, respectfully
- Professors will report inappropriate student communications to the Faculty
  - Faculty reports to BME and to Tempus
- Always check subject requirements first!
- Check Code of Studies what is allowed and what isn’t!

https://www.kth.bme.hu/document/2500/original/BME_Code_of_Studies_2016_01112020_ENG_mod.pdf

General info

- Code of Studies and Exams (kth.bme.hu)
- Faculty of Civil Engineering - curriculum (epito.bme.hu)
- Education portal edu.epito.bme.hu
  - Support from lecturer/professor
  - Infosite
- Request regarding tuition fees should be only submitted through Neptun!

Academic honesty, sanctions against academic and exam offences

- Code of studies - Title 32
- Checking identity at exams, tests
- Academic and exam offence
  - Using aids that are not allowed
  - Requesting/accepting any assistance from other students
  - Changing (or attemptimg to change) corrected/assessed tests/assignments
  - Acting in place of another person
- Failing the course (no credit)
- Professor – Dean’s office – Disciplinary procedure
- Report to Tempus

Academic honesty, sanctions against academic and exam offences

- Cases
  - Cheating during test (from material not allowed, help from other students)
  - Submitted test/home assignment is created by an other student
  - Cheating during oral exam
- Solutions
  - Short deadline, going back in the test sheet is prohibited, minus points for wring answers
  - Checking IP-s during online tests
  - Plagiarism detection software
  - Changing course requirements – focusing on evaluations that can be controlled better
  - Motivating continuous learning during semester
  - New, creative test methods

Repeat period – May 17-21

- Missed classes and some of the failed tests (should be discussed with lecturer) can be repeated.
- Part of tests can be repeated by paying extra fee. In this case the type of test (written/oral) might change!
- Homeworks and assignments can be submitted until May 21 by paying the extra fee.
- Ask the lecturer about the repeat options!
- Pre-exams of some subjects can also be taken in the repeat period.

Exam period: May 25 – Jun 25

- All exams can be repeated once, but an exam can be repeated no more than 5 times (overall 6 exams/course).
  - A course cannot be taken/registered more than 6 times
- An exam can be cancelled without consequences a day before, until noon.

Subject enrolment I.

- Starts in January/August, and closes at the end of the registration week (February/August). It's highly recommended to be registered in the very beginning! Courses with less than 6 students will be cancelled on the registration week Monday!
- Clash detection in the schedule is the students' responsibility.
- Having the signature of a subject, its exam course can be taken, no need to attend the classes and do the tests again.
- In case of branch and specialization courses, the signature might be sufficient to fulfil the pre-requirement.
- Courses cannot be changed from the 2nd week of the semester.

Subject enrolment II.

- In case only 3-4 semesters are remaining, it's recommended to create a subject enrolment plan and check whether all subjects can be passed based on the pre-requisites and minimum requirements.
- Special rules for taking projectworks, and rules for taking thesis projects!
- Always check the updated timetable/schedule on the homepage!
- Optional subject: e.g. Reinforced concrete bridges (in the 6th semester) – always check whether it runs, in advance!
- For optional course any BME course can be selected, but BSc students can select only BSc courses, MSc students only MSc courses
- Cross-semesters
  - Faculty monitoring
  - Students' request
    - Request signed by min. 15 students before the final registration period
    - Department is willing to and able to open the course
    - Faculty is able to provide room for the course

Tuition fee

- Tuition fee reduction is possible under 24 registered credits in a semester (by Neptun request). Should be approved by BME, not guaranteed!
- If justified, late payment or split payment can be requested (in Neptun), but the full fee should be transferred until the exam registration!
- In case of passive semester the transferred tuition fee can be validated in the next semester.
- No tuition fee reduction based on educational achievements from 2018 spring!
  - Alternative solution is in progress

Practical training – technical internship

- Practical training accomplished at the home country can be approved based on certification that states the student worked at least 6 weeks, and the company works in the field related to civil engineering construction.
- Positions at Hungarian companies can be applied, in this case BME issues document certifying the student status and the aim of the practical training course.
  - epito.bme.hu – education – BSc – Technical internship BMEEODHAS42
- Laboratories and departments of the Faculty can also be asked whether there are a project to join for at least 6 weeks in the summer.
- Besides the certificate, a ~10 page report is to be submitted.

Accreditation, summer course etc.

- In the credit system credits from civil engineering programs from same or higher level e.g. from BSc to BSc can be accredited/approved.
- Course that are previously accepted by the BME professor of particular BME course can be approved. General rule: reasonable thematic overlap and at least the same number of credits are required.

Diploma project

- Supervisor should be found and contacted in the previous semester.
- One industrial supervisor is required (ask the BME supervisor for support)!
- Co-supervisors can be involved from other departments or even from abroad.
- BSc from 2018 spring
  - Preparatory course for BSc thesis project
  - Bachelor thesis project

Diploma project – registration requirements

- BSc thesis
  - Min. 204 credits
  - All core subjects
  - Min. 39 credits of branch subjects
  - Min. 15 credits of specialisation subjects
  - Should be taken together with Preparatory Course for Bachelor thesis project
- MSc thesis
  - Min. 54 credits
  - Min. 29 credits of core subjects
  - Min. 8 credits of obligatory specialisation subjects

Recommendations

- Course registration
  - Do it in time!
  - Check clashing courses in schedule!
  - Support only for civil engineering courses and courses from CE curricula!
- Failing tests/exams
  - Contact the lecturers, professors in time, ask for consultation!
- Rules/regulations
  - Attending classes
  - Late arrival
- Use the Faculty Educational portal oktatas.epito.bme.hu
  - Supporting materials
  - Submitting home assignments
- Cheating/plagiarism is not tolerated at all!
- Sports & language

Education method in 2021 spring

- Online learning
- Potential switch to hybrid education system during the semester
  - Takes days – extra break in the education program
- Educational activities in regular (presence) form
  - Activities related to BSc thesis or MSc Diploma Project
  - PhD students' activities
  - Working on university project (regulated by contract)
- Changed subject requirements
  - Data sheet on moodle
  - Detailed schedules on moodle
  - Evaluation plan on homepage

Timetable - schedule

- Prepared to hybrid system
  - All courses start online in February!
- Clash detection is still running
- Field courses in summer
