## BME Faculty of Civil Engineering

### MSc level

Dear Applicant,

We very much appreciate your interest in our education program!  
Please find detailed information indicated here:

BME Faculty of Civil Engineering recently runs MSc in **Structural Engineering, Construction Information Technology Engineering, Infrastructural Engineering** and **Land Surveying and Geographical Information Systems Engineering** programme.

BME Faculty of Civil Engineering starts only in the fall semester MSc in Construction Information Technology Engineering program. But the other 3 programmes start both in the fall and spring semesters.

[MSc in Construction Information Technology Engineering program](#)

[MSc in Infrastructure Engineering program](#)

[MSc in Land Surveying and Geographical Information Systems Engineering](#)

Short [description](#) of MSc courses.

There is an entrance exam in our MSc program, written exam: maths, physics, and oral discussion.

[Here, you can practice for the entrance exam.](#)

On the oral exam, language skills and motivation are examined.

You must also prove your English language skills by a TOEFL or IELTS or equivalent language certificate min B2 level (TOEFL IBT min 72 points, IELTS min 5.0 points).

Apart from IELTS/TOEFL, there are two options:

- 1) If the language of instruction of the previous studies was English (at least one year long), a certificate is needed.
- 2) Submitting the existing language certificate and attending an online oral interview.
